

Divescapes Workshops '16

DISCOVER REBREATHERS

Sunday, Oct 23, 2016,

\$100 pp +GST (pre-register in advance)

Location: Adventures in Scuba

Discover Rebreathers! Recreational & Tech

Ever wondered what all the hype is about with rebreathers?? Now's your chance to try one out in the pool with qualified rebreather

Instructors: Adventures in Scuba's Terry Forsyth, Pacific Pro Dive's Bill Coltart and Divescapes Keynote Speaker: Becky Schott.

Start out in Adventure in Scuba's classroom going over basic rebreather theory, then choose your time slot in their pool to try a Rebreather!

The quiet, bubble-less world of rebreather diving has lots of advantages: no bubbles to scare away marine life, great for u/w photographers & videographers, longer no-deco limits & bottom times, warm, moist air, compared to dry, cool air from a scuba tank & more!

REGISTER EARLY!!

Class Presentation at Adventures in Scuba for Everyone: 9am-10:30am

Pool Times—Please Choose: 11am-12pm, 12:30pm-1:30pm, 2pm-3pm, 3:30pm-4:30pm, times fill up fast!!

Divescapes Rebreather Workshop: Sunday, Oct 23, 2016, \$100 pp +GST (must pre-register, pay in advance)

Register via PayPal On-line @ DIVESCAPES.CA

**Megalodon
Rebreather
Instructor:
Becky Schott:**
Megalodon 15
Rebreathers

Becky Kagan Schott of Liquid Productions has been diving for over 20 yrs & teaching for 15. She's used the Megalodon CCR for over eight years on a variety of film projects to exploration projects around the world. The Meg has proven to be a most robust and well tested rebreather for both work and play.

Terry Forsyth:
Adventures in Scuba,
Hollis Rebreather
Instructor:

Local PADI Course
Director & Tech Instructor

"There is so much still to be learnt, and you need to pay attention as the learning may often come from the students that you are teaching."
